Senator Meyer,

I think raising the minimum wage is critical to sustain and revitalize our local economy. When employers pay their workers a higher wage, they have more flexible income to spend on businesses in their community.

As a teenager who will soon get a job, I would like to be paid as much as possible. I am concerned to know that the minimum wage in CT has not risen in 4 years.

Senator, we need you to stand up for people and businesses in our community. Please support raising the minimum wage, and in the end, we will all benefit from it.

Thank you.
Sincerely,
Matt Anastasio
